

# Forced Vote by Mail

is about to bring

# BLACKWATER

TO SAN DIEGO

absentee voting directed by election officials

**Deborah  
Seiler**

**#1 San Diego  
Election Official**

#### FIRST IMPORTANT DECISION:

Blackwater issue will be decided by an election of **FORCED VOTE BY MAIL**

Former Director of Government Relations at Sequoia

Former sales representative at Diebold (led to the wrongful purchase of \$400,000 of non-certified voting equipment for County of Solano).

**Michael  
Vu**

**#2 San Diego  
Election Official**

Michael Vu was forced out of a similar job in Cuyahoga County, Ohio, because thousands of absentee ballots were not sent out.

His top two deputies are now in prison for tampering with ballots in 2004 Ohio recount and a report reveals Vu had problems handling voter registration and absentee ballots.

#### What is Blackwater?

They are world's most powerful privately-owned, for-profit, mercenary army FUNDED BY U.S. TAX DOLLARS.

#### Why will Vote by Mail enable Blackwater to set up here?

Vote by Mail is a *Trust-Based* Voting Method. The legitimacy and privacy of operations are entrusted to election insiders to manage a labyrinth of custody, which is secured only with a difficult to enforce regulation-laden bureaucracy. Because citizen oversight is limited to gratuitous spot checks—at best, and even upon an opportunity to pull a precinct's ballots out for examination, it offers no means to affirm that the ballots tabulated are the same ballots that were cast, without manipulation, and in their entirety. **Solution: Demand reinstatement of your right to vote at your precinct on paper!**

For more problems see: <http://tinyurl.com/2k8zwh>

#### Are they dangerous?

At Abu Ghraib, "the U.S. Army found that contractors were involved in 36 percent of PROVEN ABUSE INCIDENTS," but "not a single private contractor named in the Army's investigation report has been charged, prosecuted or punished." The Iraqi government seeks to oust them from their country, because at least 8 civilians were RANDOMLY KILLED apparently for no reason.

#### The "Posse Comitatus Act" will protect us?

**No.** This act severely limited the use of military forces on our own citizens to protect us from abuses of power. However, in 2006, Congress overturned this protection by passing a bill that grants the President the right to commandeer military, at his sole discretion, and to use them inside the United States.
